Deadly LaPa Skipping Crew DVD Launch

On Thursday 10 September at 6pm we would love you to join us to celebrate the launch of the "Deadly La Pa Skipping Crew" DVD at 6pm in the school hall.

In collaboration with the Heart Foundation, La Perouse Public School has put together the very first Outreach Demonstration Skipping Team called 'The Deadly La Pa Skipping Crew'. In Term 2 2015, the team travelled to schools in Western NSW to promote the active and healthy messages of the Heart Foundation as well as perform and run skipping workshops to teach other students the skills and tricks they had learnt. A film crew followed the skipping team throughout their whole journey and created a DVD that will be made available over time to over 300 public schools across NSW.

We would be honoured if you could join us and celebrate "The Deadly La Pa Skipping Crew" and their achievement.

A light meal will be available at the school at a cost of $5.

If you are able to attend, could you please RSVP by Monday 7th September by either phoning the school on 9311 2210 or emailing laperouse-p.school@det.nsw.edu.au

We look forward to seeing you on Thursday 10th September 2015.

1-2-3 Magic Program

A 1-2-3 Magic Effective Discipline course is available for interested parents. Please see http://www.123magic.com for more details on 1-2-3– Magic. If you are interested in this course could you please contact the school office on 9311 2210 by Thursday September 10.

NRL Tackle Bullying

On Monday 7 September students will attend the NRL Tackle Bullying workshop at Rugby League Central in Moore Park. NRL Tackle Bullying aims to empower students to stand up for themselves and others who are being bullied. The program aims to provide students with tools and role models to combat bullying and make a positive difference to their lives.

Tribal Warrior Excursion

The Tribal Warrior which is on Wednesday 9 September is a Bangabaou educational cruise that will give the students an opportunity to experience history and culture from an Aboriginal perspective. The students will learn about tribal fishing methods, the didgeridoo and bush tucker.

Father’s Day breakfast

We have enjoyed having our fathers, uncles and grandfathers at school this morning.

The staff from La Perouse PS would like to sincerely wish you all a very Happy Father’s Day on Sunday!

CALENDAR

Monday 7/9/15
NRL Tackle Bullying

Wednesday 9/9/15
Tribal Warrior

Thursday 10/9/15
Deadly LAPA Skipping Crew DVD Launch

Deadline for “expression of interest” for the 1-2-3 Magic Program
Morning Fitness sessions

We have all enjoyed our fitness circuits each morning. Each student has an opportunity to experience different skills/games. The research behind exercising in the morning is that it improves mood, lowers aggression and increases attention.

Rabbitohs Support Council Footy Clinic with Souths Cares

On Monday 31 August our students went to Yarra Oval to participate in the Rabbitohs Support Council Footy Clinic. The purpose of the clinic was to encourage students to adopt and maintain a healthy lifestyle. Our students were provided with a morning tea of fresh fruit, a muesli bar and water as well as a signed team poster. Our heartfelt thanks goes to Souths Cares, the Rabbitohs players and Randwick City Council for providing us with such a wonderful opportunity. Please see the link below for the story.

Power house Excursion

Girawaa and Magadaang went to the Powerhouse Museum on Wednesday 2 September. Students were given the opportunity to see all the different kinds of inventions over the years, and examined forms of transport, communication and space travel. Students also learnt about how electricity works and how it is used in different inventions that we use everyday.

I would like to take this opportunity to wish all the community a bright and special Father’s Day!

With warm thoughts and happy wishes,

Elizabeth Markovski
Burri Burri has been investigating the properties of 3D shapes in mathematics this week and as a reward for recent positive behaviour the class made pizzas from scratch.
This week Girawaa and Magadaang went to the Powerhouse Museum. While we were there we learnt about Space, Telephones and Transport. We were also taken into the mine craft room which students enjoyed. The students had such a lovely day and they learnt so much more about our topic ‘Inventions that changed the world'
Magadaang

Magadaang have been learning all about their brains! Students have been participating in physical activity circuit training each morning to give them the best start to learning each day. They have discovered that taking care of their brain and wellbeing allows them a better chance at achieving their best! We are even starting an ‘emotions wall’ which allows each person to show how they are feeling each day and lets teachers check in with them as their mood changes!

Congratulations to Jaiah for his fantastic work and terrific story telling.

Well done Jayden!
HAPPY FATHER’S DAY TO ALL OUR FATHERS, UNCLEs, & GRANDFATHERS
