Active After-school activities

We have had the Active After-school activities running at school each Tuesday and Thursday for more than a year now and a number of students are making the most of the great opportunities this program offers. However there is a small group of children who stay for the afternoon but refuse to participate once it begins. They are mostly the children with brothers and sisters participating and they wait to take them home. It would not be a problem if they sat and waited quietly but they walk away from the groups, play on the equipment and run around behind buildings. We cannot ensure the safety of children who refuse to cooperate and hide around the school. We have explained to the children that if they don’t join in the activities they will not be able to stay, please talk to you children regarding this matter as the safety of children participating in after school sports is very important to everyone involved. If your child is asked not to return to after school sports because of non participation, you will be notified via a letter from the school. I appreciate your help in this matter.

School Photos will be taken on Wednesday 2/6/10.
All students should be in FULL school uniform

SPROUT filming

Years 4, 5 and 6 are currently working with a film crew developing their stories and are planning to begin filming their movies over the next couple of weeks. Thank you to Mrs Park, Mr Scully and Drew for helping in the development of the films. Each small group of students has a different story and have planned their film independently of each other. I look forward to viewing the final product once the children have edited and finished their films. Look forward to them at the end of year presentation!
Year 4/5/6 Film making.

Year 4/5/6 are involved in an exciting project! It’s called Sprout and it involves students telling their stories of life in Lapa. Students will be working in teams to create films about the activities they do on the weekend, an exciting or memorable time in their lives, or interview someone who means something to them. With the help of the Sprout team students are learning about how to use the filming equipment and how to tell a story using moving images.

Look forward to seeing stories about the beach, a terrifying travel adventure, and some netball playing sisters. Filming day is next Tuesday. The groups are busy readying shot lists and ideas for shooting. Based on some of the ideas I’ve seen the finished results should be outstanding! Listen out for news of a premiere screening of our films, it will be a must see event!

Jason Scully

CANTEEN VOLUNTEERS

We are desperately in need of volunteers for our Canteen. Anyone with a few hours to spare on any day of the week would be most appreciated!

TISSUES

To help with the up coming winter sniffles could all families please provide a box of tissues to the school.
K/1 Headlines

Recently the students from K/1 looked at the subject of Time in Maths. K/1 Students discussed their favourite times of the day and what activities we may do that represent this e.g. waking up out of bed (morning). K/1 students also learnt about O’clock and how this is shown on a watch or clock face. In particular the students had fun making their very own watches to show the time. This was an enjoyable way for the students to become more familiar with analogue time.

Please check your child/ren’s school bags for notes each afternoon as some children forget to give them to parents!
